KNR 298.15 - Practicum V			
Code	Description	Instructed	Evaluated
CIP-1	Administer testing procedures to obtain baseline data regarding a ... client's/patient's level of general health (including nutritional habits, physical activity status, and body composition). Use this data to design, implement, evaluate, and modify a program specific to the performance and health goals of the patient. This will include instructing the patient in the proper performance of the activities, recognizing the warning signs and symptoms of potential injuries and illnesses that may occur, and explaining the role of exercise in maintaining overall health and the prevention of diseases. Incorporate contemporary behavioral change theory when educating clients/patients and associated individuals to effect health-related change. Refer to other medical and health professionals when appropriate. <input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
CIP-3	Develop, implement, and monitor prevention strategies for at-risk ... individuals (eg, persons with asthma or diabetes, persons with a previous history of heat illness, persons with sickle cell trait) and large groups to allow safe physical activity in a variety of conditions. This includes obtaining and interpreting data related to potentially hazardous environmental conditions, monitoring body functions (eg, blood glucose, peak expiratory flow, hydration status), and making the appropriate recommendations for individual safety and activity status. <input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
CIP-5	Perform a comprehensive clinical examination of a patient with a common ... illness/condition that includes appropriate clinical reasoning in the selection of assessment procedures and interpretation of history and physical examination findings in order to formulate a differential diagnosis and/or diagnosis. Based on the history, physical examination, and patient goals, implement the appropriate treatment strategy to include medications (with physician involvement as necessary). Determine whether patient referral is needed, and identify potential restrictions in activities and participation. Formulate and communicate the appropriate return to activity protocol. <input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
CIP-8	Demonstrate the ability to recognize and refer at-risk individuals and ... individuals with psychosocial disorders and/or mental health emergencies. As a member of the management team, develop an appropriate management plan (including recommendations for patient safety and activity status) that establishes a professional helping relationship with the patient, ensures interactive support and education, and encourages the athletic trainer's role of informed patient advocate in a manner consistent with current practice guidelines. <input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
